

Relevance-Based Prediction: Factor Selection for Saugus Schools

Four outcomes: MCAS grades 3–8, Dropout Rate, MCAS grade 10 ELA, Education Budget Share

One RBP run per outcome on ALL candidate variables — no feature pruning (faithful to Kritzman)

Exhibit 5 importance is descriptive: positive = helps, ≈ 0 = benign / diversified away (fn. 12), < 0 = harmful

Saugus analyzed as the prediction task; most/least relevant towns identified per Exhibit 4

Leave-one-out LOO r validates the predictions across all MA districts

Model Summary (all candidates used — no pruning)			
MCAS Grades 3-8	Dropout Rate	MCAS Grade 10 (ELA)	Education Budget Share
Predicted on 17 candidates	Predicted on 18 candidates	Predicted on 18 candidates	Predicted on 18 candidates
Positive importance: 17 of 17	Positive importance: 17 of 18	Positive importance: 17 of 18	Positive importance: 18 of 18
LOO r = +0.945	LOO r = +0.831	LOO r = +0.896	LOO r = +0.899

Pre-Specified Candidate Pool — Feature Reduction

Features selected on domain grounds before running RBP. Reduces K/N ratio from ~0.19 to ~0.09 (target ≈ 0.085).

Kept — 14 pure predictors

Group	Feature	Measures
Poverty	low_income_pct	% low-income students
Wealth	median_hh_income	Median household income
Wealth	equalized_income	Equalized property value/capita
Human capital	pct_bachelors_plus	% adults with bachelor's+
Housing	pct_owner_occupied	% owner-occupied homes
Community	crime_rate	Crime incidents per capita
Community	res_tax_rate	Residential tax rate
Engagement	chron_absenteeism_pct	% chronically absent
Demographics	ell_pct	% English language learners
Demographics	sped_pct	% special education students
Size	total_enrollment	District enrollment
Staffing	teachers/100_students	Teachers per 100 students
Staffing	avg_teacher_salary	Average teacher salary
Spending	nss_per_pupil	Net school spending/pupil

Dropped — 12 redundant/problematic features

Dropped	Kept instead	Reason
high_needs_pct	low_income_pct	$r=+0.981$ — near-duplicate
acs_poverty_pct	low_income_pct	$r=+0.87$ — redundant poverty
foundation_budget_pp	nss_per_pupil	$r=+0.92$ — redundant spending
ch70_per_pupil	equalized_income	$r\approx-0.87$ — inverse wealth proxy
teacher_fte	total_enrollment	$r=+0.994$ — linear with enroll
total_population	total_enrollment	$r=+0.953$ — size proxy
teachers_per_100_fte	t_per_100_students	$r=+0.872$ — duplicate ratio
teacher_spending_pp	nss_per_pupil	$r\approx+0.85$ — redundant spending
gf_exp_per_capita	res_tax_rate	$r\approx+0.75$ — redundant municipal
pct_65_plus	—	Weak signal, no policy lever
com_tax_rate	res_tax_rate	$r\approx+0.65$ — commercial tax dup
mcas10_math	mcas10_elar	$r=+0.90$ — one grade-10 measure

Correlation threshold for deduplication: $|r| > 0.87$. Cross-outcome features (avg_mcas, mcas10_ela, dropout_pct, attending_pct) handled separately per model via exclusion rules.

Feature Correlation Matrix — All Candidates (hierarchically clustered)
Features ordered by |correlation| — dark red/blue clusters = high redundancy

Variable Importance (Exhibit 5): MCAS Grades 3-8

17 candidates, all used for prediction · n_random=3000 · top-3 NOT seed-stable · 17 help (imp>0) · 0 benign (≈0) · 0 harmful (imp<0)

All Candidates — Variable Importance (all retained)
Green = helps (>0) · Grey ≈ 0 benign · Red < 0 harmful

Saugus RBP Analysis: MCAS Grades 3-8

Prediction task = Saugus · Predicted: 22.4pp Actual: 29.0pp Gap: +6.6pp (Fit: 0.1562)

Variable Importance (Exhibit 5)

Overachiever residuals vs Saugus

District	Actual	Predicted	Gap
>> Saugus	29.0	22.4	+6.6pp
Winchendon	21.0	2.1	+18.9pp
Lawrence	16.5	2.0	+14.5pp
Falmouth	44.5	30.6	+13.9pp
Springfield	17.5	4.9	+12.6pp
Chelsea	16.5	4.6	+11.9pp
North Adams	20.5	8.7	+11.8pp

Gap = actual – predicted. Positive = outperforming demographic expectation. Feature values shown in raw units; importance scores from RBP Exhibit 5.

What This Means: MCAS Grades 3-8

Predicted 22.4pp · Actual 29.0pp · Gap +6.6pp (higher is better) · Saugus ranks 31 of 168 MA districts on this measure

The Bottom Line

Saugus's MCAS grades 3–8 proficiency (ELA + Math, meeting/exceeding) is 29.0%, 6.6pp better than its demographic prediction of 22.4% — ranking 31 of 168 MA districts, in the top 25%. A district with Saugus's income, poverty, and enrollment profile is predicted to land near this level.

What Shapes Saugus's Predicted Peer Group

Top RBP Exhibit 5 drivers of the Saugus prediction, vs. the statewide median:

Factor	Saugus	MA median	Importance
Adults with a bachelor's degree+	31.4%	46.9%	+0.38
Students chronically absent (10%+)	31.2%	15.8%	+0.36
Total district enrollment	3,084	1,669	+0.33
Annual dropout rate	2.9%	0.9%	+0.32
Owner-occupied housing units	73.9%	78.3%	+0.32

Importance measures how much each factor sharpens the search for Saugus's true comparison districts — not whether higher values are good or bad for the outcome itself.

What Over-Performing Towns Do Differently

Same factors, for the 8 MA districts that most exceed their own prediction:

Factor	Saugus	Peer median	Difference
Adults with a bachelor's degree+	31.4%	25.5%	-6.0pp
Students chronically absent (10%+)	31.2%	29.8%	-1.4pp
Total district enrollment	3,084	5,212	+2,128
Annual dropout rate	2.9%	3.8%	+0.9pp
Owner-occupied housing units	73.9%	51.3%	-22.6pp

Difference = over-performer median – Saugus. Sign direction depends on the factor; see takeaway below.

The Takeaway

Saugus does better here than its demographic profile predicts. The strongest RBP driver of Saugus's predicted peer group is adults with a bachelor's degree+ (31.4% vs the 46.9% state median); the widest gap to the over-performing districts is total district enrollment (+2,128, peer median – Saugus). (Driver ranking is close enough at the top that the #1 factor is not fully seed-stable — read the top group, not the exact order.) The drivers below are where Saugus differs most from the towns that beat their own predictions — the most plausible places to move this result.

Variable Importance (Exhibit 5): Dropout Rate

Overachiever residuals vs Saugus

District	Actual	Predicted	Gap
>> Saugus	2.9	3.6	-0.7pp
Marlborough	1.4	4.6	+3.2pp better
Clinton	1.1	4.2	+3.1pp better
Worcester	2.1	4.9	+2.8pp better
Fitchburg	2.1	4.5	+2.4pp better
Palmer	0.9	3.3	+2.4pp better
Norwood	0.1	2.4	+2.3pp better

Gap = actual – predicted. Positive = outperforming demographic expectation. Feature values shown in raw units; importance scores from RBP Exhibit 5.

What This Means: Dropout Rate

Predicted 3.6pp · Actual 2.9pp · Gap -0.7pp (lower is better) · Saugus ranks 40 of 168 MA districts on this measure

The Bottom Line

Saugus's dropout rate is 2.9%, 0.7pp better than its demographic prediction of 3.6% — ranking 40 of 168 MA districts, in the top 25%. Dropout reflects re-engagement and attendance recovery as much as demographics.

What Shapes Saugus's Predicted Peer Group

Top RBP Exhibit 5 drivers of the Saugus prediction, vs. the statewide median:

Factor	Saugus	MA median	Importance
Students chronically absent (10%+)	31.2%	15.8%	+0.59
Ed budget share	32.3	48.2	-0.39
Median household income	\$100,819	\$109,970	+0.25
Crime incidents per 100k residents	2,813	2,241	+0.24
Average teacher salary	\$89,778	\$90,677	+0.23

Importance measures how much each factor sharpens the search for Saugus's true comparison districts — not whether higher values are good or bad for the outcome itself.

What Over-Performing Towns Do Differently

Same factors, for the 8 MA districts that most exceed their own prediction:

Factor	Saugus	Peer median	Difference
Students chronically absent (10%+)	31.2%	26.7%	-4.5pp
Ed budget share	32.3	48.9	+16.6
Median household income	\$100,819	\$74,724	-26,095
Crime incidents per 100k residents	2,813	4,392	+1,579
Average teacher salary	\$89,778	\$87,136	-2,642

Difference = over-performer median – Saugus. Sign direction depends on the factor; see takeaway below.

The Takeaway

Saugus does better here than its demographic profile predicts. The strongest RBP driver of Saugus's predicted peer group is students chronically absent (10%+) (31.2% vs the 15.8% state median); the widest gap to the over-performing districts is median household income (-26,095, peer median – Saugus). (Driver ranking is close enough at the top that the #1 factor is not fully seed-stable — read the top group, not the exact order.) Chronic absenteeism is the factor to watch — the main risk to this result if it climbs.

Hatfield	75.0	54.2	+20.8pp
Nantucket	67.0	47.1	+19.9pp
Lenox	90.0	70.4	+19.6pp
Monson	57.0	40.6	+16.4pp
Winchendon	33.0	16.7	+16.3pp

Gap = actual – predicted. Positive = outperforming demographic expectation. Feature values shown in raw units; importance scores from RBP Exhibit 5.

What This Means: MCAS Grade 10 (ELA)

Predicted 40.0pp · Actual 47.0pp · Gap +7.0pp (higher is better) · Saugus ranks 42 of 168 MA districts on this measure

The Bottom Line

Saugus's grade 10 ELA proficiency is 47.0%, 7.0pp better than its demographic prediction of 40.0% — ranking 42 of 168 MA districts, in the top 25%. Grade 10 ELA reflects the cumulative academic base, not only current demographics.

What Shapes Saugus's Predicted Peer Group

Top RBP Exhibit 5 drivers of the Saugus prediction, vs. the statewide median:

Factor	Saugus	MA median	Importance
Adults with a bachelor's degree+	31.4%	46.9%	+0.25
Students chronically absent (10%+)	31.2%	15.8%	+0.22
Total district enrollment	3,084	1,669	+0.21
MCAS 3-8 (% meeting/exceeding)	29.0%	40.0%	+0.21
Equalized property value per capita	\$1.17B	\$935M	+0.21

Importance measures how much each factor sharpens the search for Saugus's true comparison districts — not whether higher values are good or bad for the outcome itself.

What Over-Performing Towns Do Differently

Same factors, for the 8 MA districts that most exceed their own prediction:

Factor	Saugus	Peer median	Difference
Adults with a bachelor's degree+	31.4%	37.1%	+5.6pp
Students chronically absent (10%+)	31.2%	21.9%	-9.3pp
Total district enrollment	3,084	1,135	-1,949
MCAS 3-8 (% meeting/exceeding)	29.0%	26.5%	-2.5pp
Equalized property value per capita	\$1.17B	\$300M	-871M

Difference = over-performer median – Saugus. Sign direction depends on the factor; see takeaway below.

The Takeaway

Saugus does better here than its demographic profile predicts. The strongest RBP driver of Saugus's predicted peer group is adults with a bachelor's degree+ (31.4% vs the 46.9% state median); the widest gap to the over-performing districts is equalized property value per capita (-871M, peer median – Saugus). (Driver ranking is close enough at the top that the #1 factor is not fully seed-stable — read the top group, not the exact order.) Saugus's grades 3-8 base, teacher compensation, and enrollment scale are the levers most visible among the drivers.

Predicted 36.5pp · Actual 32.3pp · Gap -4.2pp (higher is better) · Saugus ranks 202 of 219 MA districts on this measure

The Bottom Line

Saugus's education budget share is 32.3%, 4.2pp worse than its demographic prediction of 36.5% — ranking 202 of 219 MA districts, in the bottom 10%. Unlike the academic measures, this gap reflects a municipal budgeting choice, not a demographic constraint.

What Shapes Saugus's Predicted Peer Group

Top RBP Exhibit 5 drivers of the Saugus prediction, vs. the statewide median:

Factor	Saugus	MA median	Importance
Pension & benefits share of budget	25.3%	17.5%	+0.95
Debt service share of town budget	8.6%	5.0%	+0.91
Police & fire share of town budget	15.2%	11.8%	+0.90
Public works share of town budget	7.3%	5.3%	+0.76
Residential tax rate (per \$1,000)	10.7	12.6	+0.59

Importance measures how much each factor sharpens the search for Saugus's true comparison districts — not whether higher values are good or bad for the outcome itself.

What Over-Performing Towns Do Differently

Same factors, for the 8 MA districts that most exceed their own prediction:

Factor	Saugus	Peer median	Difference
Pension & benefits share of budget	25.3%	17.6%	-7.7pp
Debt service share of town budget	8.6%	3.0%	-5.6pp
Police & fire share of town budget	15.2%	10.7%	-4.5pp
Public works share of town budget	7.3%	4.0%	-3.3pp
Residential tax rate (per \$1,000)	10.7	12.3	+1.7

Difference = over-performer median – Saugus. Sign direction depends on the factor; see takeaway below.

The Takeaway

Saugus does worse here than its demographic profile predicts. The strongest RBP driver of Saugus's predicted peer group is pension & benefits share of budget (25.3% vs the 17.5% state median); the widest gap to the over-performing districts is pension & benefits share of budget (-7.7pp, peer median – Saugus). The top drivers are competing budget categories that crowd out the education share — the lever here sits with Town Meeting and municipal budgeting, not the school district.

Combined Model Summary: All Four Outcomes

RBP factor selection results across MCAS grades 3-8, Dropout Rate, MCAS grade 10 ELA, and Education Budget Share

Model	Predicted	Actual	Gap	Direction	LOO r	Features
MCAS Grades 3-8	22.4%	29.0%	+6.6pp	over	+0.945	17
Dropout Rate	3.6%	2.9%	-0.7pp	over	+0.831	18
MCAS Grade 10 (ELA)	40.0%	47.0%	+7.0pp	over	+0.896	18
Education Budget Share	36.5%	32.3%	-4.2pp	under	+0.899	18

Feature Cross-Reference — Which Factors Earn Their Place Across Models

A feature appearing in multiple models is a robust signal, not a model-specific artifact.

Feature	# Models	MCAS 3-8	Dropout	MCAS 10	Ed Budget
total enrollment	4	+0.330	+0.186	+0.214	+0.580
chronic absenteeism pct	4	+0.357	+0.590	+0.215	+0.147
pct bachelors plus	4	+0.378	+0.214	+0.252	+0.380

Green rows = feature appears in 3+ models. Cell colour: green = positive importance, red = negative importance, white = not in that model (—).

Budget Allocation & Teacher Density — 15-Year Trajectory

Source: MA DLS Schedule A (budget) · MA DESE Staffing (teachers) · Peer comparison: 8 demographically similar overachiever towns

Education Budget Share
(Schedule A, general fund)

Teacher Density
(DESE Staffing + Enrollment)

Independent cross-validation (computed in this run): standardized Ridge regression on 168 MA districts (5-fold CV $R^2=0.88$) ranks students chronically absent (10%+) #14 of 17 standardized predictors of MCAS 3-8 ($|standardized \beta|=0.04$) — corroborating the RBP Exhibit 5 finding by a separate method. Peer set: 8 demographically similar overachiever towns (Mahalanobis $d_M \leq 2$).

Fixed Costs: Sources, Scale, and OPEB Prefunding

FY2025 · Comparable = 54 MA towns (80M-140M) · All MA = 339 · Columns sum exactly to total for all 4,898 statewide municipality-years

Optimum Profile — What Overachievers Look Like

Each grid shows actionable feature values for Saugus vs overachiever towns. Showing both peer groups tests whether the finding holds across definitions.

Overachievers — all 20 MA districts that beat their demographic prediction

Feature	Saugus	Springfie	Winchendo	Lawrence	Chelsea	North Ada	Peer med	Gap	N
Chronic absenteeism (%)	31.2%	32.4%	35.6%	29.2%	35.4%	30.4%	23.8%	-7.4pp	20
Teachers / 100 students	5.9	7.4	6.7	7.4	6.7	8.7	7.5	+1.6	20
Avg teacher salary	\$89,778	\$84,692	\$83,722	\$84,516	\$89,573	\$76,435	\$87,302	\$-2,476	20
Net school spending / pupil	\$17,369	\$26,616	\$19,559	\$23,178	\$22,535	\$26,299	\$22,390	+\$5,020	20
Shown: Springfield, Winchendon, Lawrence, Chelsea, North Adams (+ 15 more in median)									

Demographically Similar Overachievers — 16 towns within 2σ Mahalanobis distance of Saugus on income, property wealth, poverty, size, education & ELL

Feature	Saugus	Norwood	Clinton	Fairhaven	West Boyl	Sandwich	Peer med	Gap	N
Chronic absenteeism (%)	31.2%	25.1%	7.7%	15.6%	15.6%	17.9%	20.9%	-10.2pp	16
Teachers / 100 students	5.9	8.8	7.3	7.5	8.1	8.1	7.8	+2.0	16
Avg teacher salary	\$89,778	\$92,324	\$87,059	\$82,224	\$89,252	\$87,840	\$87,302	\$-2,476	16
Net school spending / pupil	\$17,369	\$21,084	\$18,512	\$17,287	\$19,718	\$26,445	\$20,975	+\$3,606	16
Shown: Norwood, Clinton, Fairhaven, West Boylsto, Sandwich (+ 11 more in median)									

Similarity metric: Mahalanobis distance $d_M = \sqrt{(\Delta x \cdot \Sigma^{-1} \cdot \Delta x')}$, Σ = sample covariance of all MA districts on (median_hh_income, equalized_income, low_income_pct, total_enrollment, pct_bachelors_plus, ell_pct). Threshold: $d_M \leq 2$ (2σ). Pre-specified; not tuned to result. Gap = peer median – Saugus. Red = Saugus below peer median, Green = at or above.

Actual vs. Predicted: All Three Models

Each dot = one MA district. Saugus highlighted in gold.

MCAS Grades 3-8
LOO r = 0.945

Dropout Rate
LOO r = 0.831

MCAS Grade 10 (ELA)
LOO r = 0.896

Leave-one-out predictions — each district excluded from its own prediction.
